

# Online Learning for Tribal Government and Enterprise

## 2025 Online Learning Series

Tribal First Risk Control is pleased to offer our new learning series that focuses on safety tools to aid with mitigating risk. Each live 1-hour learning session begins at 10:00am PST. All presentations are recorded.

January 30 <sup>th</sup>	<a href="#">Emerging Risk: Electrical Vehicle and Micromobility Device Stations</a>	Ignition and fire hazards from electrical vehicles, e-bikes, and electric scooter batteries have resulted in considerable property damage and injuries. Discover mitigating factors, best practices for placement, and policies you can implement.
March 13 <sup>th</sup>	<a href="#">Introduction to the Tribal First Housing Program</a>	Tribal First Premier is our newly developed housing program designed to address coverage gaps in today's Tribal Housing insurance products. Join us for a panel discussion to learn about program attributes and services.
March 27 <sup>th</sup>	<a href="#">Job Hazard Analysis – Your First Step in Safety</a>	JHA can be an excellent accident and injury reduction tool to identify and analyze potential hazards and risks in a job or activity. Discover how JHAs can optimize safety, and training, and reduce claims at your organization.
April 24 <sup>th</sup>	<a href="#">Fall Protection – What Does the Standard Say?</a>	Elevated surfaces are a commonly misunderstood concept that can lead to tragic results. Employers should be able to recognize areas of their facilities that could be considered “elevated surfaces” and put into place the appropriate safety controls to protect their employees and customers. Join us to gain a better understanding of what OSHA calls “An Employer’s Duty to Provide Fall Protection”.
May 22 <sup>nd</sup>	<a href="#">AI and the Potential Impact on Risk Management and Safety</a>	The world of risk and safety management is forever changing with the introduction of Artificial Intelligence (AI) entering the market at a rapid pace. While there are a multitude of benefits, there are concerns that should be considered. We’ll explore the gaps and controls to monitor the potential impact it may have on operations and safety.
June 26 <sup>th</sup>	<a href="#">Application for Behavioral Safety</a>	What if you could attack employee errors proactively? Safety inspections only identify unsafe conditions after they are created. Join us for a discussion on ways to change unsafe behaviors before they create a condition which can cause an accident.
August 21 <sup>st</sup>	<a href="#">Industrial Hygiene: Exposures within Casino, Hotel, and Resort Environments</a>	Do you have exposures to chemical, biological or physical hazards that can cause injury or illness to your employees? Identifying and evaluating those exposures can be challenging, but there is a professional who is trained and dedicated to help with this effort. Join this webinar to learn more about industrial hygiene and how an industrial hygienist can help your organization with the anticipation, evaluation, and control to off common Casino/Hotel exposures.
September 18 <sup>th</sup>	<a href="#">Management’s role in safety program implementation and training.</a>	Safety training provides employees with the skills needed to identify potential hazards, use equipment properly, and implement preventive measures. By fostering a culture of safety, organizations can significantly reduce the risk of accidents and injuries. Join us for an engaging webinar where we will discuss the important role that management plays in the success or failure of these initiatives.
October 23 <sup>rd</sup>	<a href="#">Accident Investigations: A to Z</a>	Accident investigations are critical to a safety programs. They should identify root causes to determine your course of action to mitigate the event from recurring. This task often seems daunting and complex. Don't worry, we're here to help! Join us as we break down the accident investigation process from start to finish, in search for the root cause.
November 19 <sup>th</sup>	<a href="#">OSHA Update: Local Emphasis Programs, Citations and Visits</a>	Did you know that Federal OSHA has compliance emphasis programs that include inspection of Tribal Casino Resort operations. Join this webinar to learn more about this program, common OSHA citations and approaches to prepare for OSHA showing up.
December 17 <sup>th</sup>	<a href="#">The Value of a Comprehensive Ergonomics Program</a>	An ergonomics program involves more than providing employees with the right tools; it requires fostering a culture that prioritizes well-being and safety. Formalizing these programs demonstrates the organization’s commitment and creates a framework for proactive risk management. Join us in this webinar to discover how a comprehensive ergonomics program can benefit your organization.
